Project Design Phase-II
Solution Requirements (Functional & Non-functional)

Date	26 OCTOBER 2023
Team ID	NM2023TMID00901
Project Name	Project – COMPETITIVE ANALYSIS OF LEADING TRAVEL AGGREGATORS

Functional Requirements:

FR No.	Non-Functional Requirement	Description
NFR-1	**Trustability**	The user must trust the application or website they provide their personal information.
NFR-2	**Security**	The tool must safeguard user data and personal information, ensuring that it remains confidential and protected from unauthorized access.
NFR-3	**Reliability**	The system must operate consistently without frequent outages, ensuring that users can rely on it for critical tasks.
NFR-4	**Performance**	The system should respond quickly to user interactions, ensuring that users can access data and features without significant delays.
NFR-5	**Availability**	The system should regularly backup user data, and in the event of data loss or system failure, it must have mechanisms in place to recover the data.
NFR-6	**Usability**	The user interface should be easy to navigate, with intuitive design and clear instructions, ensuring users can effectively use the tool without confusion.
NFR-7	**Scalability**	The system must handle a growing number of users and data without a decrease in performance, making it adaptable to an expanding user base.

Following are the functional requirements of the proposed solution.

Non-functional Requirements:

Following are the non-functional requirements of the proposed solution

FR No.	Functional Requirement (Epic)	Sub Requirement (Story / Sub-Task)
FR-1	User Registration	Registration through chrome Registration through application
FR-2	User Confirmation	Confirmation via Email Confirmation via OTP Conformation via phone number via OTP
FR-3	Profile completion	WHICH PLACE SHOULD THE CUSTOMER WANTS TO GO
FR-4	profile Integration	Connect existing business profile to my account
